<b>XX-LARGE</b>	620 - 655mm / 24 ¼ - 25 ¾ inches	210 - 230mm / 8 ¼ - 9 inches	160 - 180mm / 6 ¼ - 7 ¼ inches

### CIRCUMFERENCE

Using a measuring tape, measure maximum head circumference approximately 12mm above the eyebrows and ears.

### LENGTH

Using calipers or two pencils, measure maximum head length. If using two pencils instead of calipers, hold one between eyebrows and one at the back of the head and measure head length.

### WIDTH

Using calipers, measure maximum head width above the ears. If using two pencils instead of calipers, hold them at either side of head above the ears and measure head width.
